**HIGHLANDS RANCH METRO DISTRICT ADDS ANOTHER FULL-TIME AMBULANCE  
TO SERVE COMMUNITY**

The Highlands Ranch Metro District Board of Directors, in cooperation with the Littleton Fire Protection District (LFPD) and the City of Littleton, has added another full-time ambulance in Highlands Ranch. The new ambulance, which went into service Wednesday, February 10 at station 16 off Santa Fe Dr. and Blakeland Blvd., is expected to improve overall response time by about 30 seconds. A reserve vehicle is in use while the new ambulance is ordered and assembled. The new ambulance is expected to be in service by summer.

“We’re pleased to provide this enhanced service without an associated tax increase,” said Metro District General Manager Terry Nolan. The ambulance is being purchased using system development fees paid by Shea Homes and other developers. The Metro District’s portion of the additional staffing for this ambulance is being provided from the general fund as one of the top priorities of the Metro District Board of Directors. This item is included in the Metro District’s adopted 2010 budget.

The Metro District provides fire and emergency services to the Highlands Ranch community in a cost-effective manner through a contract with the City of Littleton and LFPD.

For more information about the Metro District, please visit [www.highlandsranch.org](http://www.highlandsranch.org). The Highlands Ranch Metro District has served the community for 29 years, providing municipal services to the community’s 93,000 residents.
