

Fire and Emergency Services Workshop
Notes
June 22, 2016

Board Members present: Renee Anderson, Allen Dreher, Rick Owens, Carolyn Schierholz, Nancy Smith, Vicky Starkey and Jim Worley

Staff Present: Jeff Case, Bruce Lebsack, Terry Nolan, Stephanie Stanley and Carrie Ward

The Board had a detailed discussion about how to improve response times that included:

1. Review of current LFR total response times and neighboring districts' emergent response times.
2. Setting a 90% response time goal.
3. Setting a minimum response time for all properties in Highlands Ranch.
4. Current Master Plan implementation status.
5. Possible impact of the three additional peak-time units coming on line in August 2016.
6. Possibility of including the purchase of a medic unit for Station 18 in the 2017 budget. This is also in the Master Plan for future years.
7. Possibility of adding a fire station and where it should be located. This is also in the Master Plan for future years.
8. Disappointment in the delay by LFR in providing emergent response times.

This discussion will be continued during the Board Visioning Workshop scheduled for 8:30 a.m. Saturday June 25, 2016.

Some on the Board expressed their disappointment in the logos on the apparatus. Carolyn or Terry will contact the Fire Chief and ask for possible alternatives.
