Rx DRUGS

Not yours. Not safe.

National Prescription Drug Take Back Day

Flushing or dumping medicine down a drain or toilet is not a good way to dispose of it. Pharmaceutical residues have been detected in the drinking water of 24 major metropolitan areas across the country serving 46 million people. Instead, **drive through and turn in your unused or expired prescription and over-the-counter medication for safe disposal.**

Saturday, October 27
10 a.m. to 2 p.m.

Douglas County Sheriff's Office
Highlands Ranch Substation
9250 Zotos Drive
