

Parking lot repairs scheduled for Northridge Park

Two of the three parking lots at Northridge Park are scheduled to temporarily close for resurfacing. Work will begin Oct. 7 with milling and paving scheduled for Oct. 14-19, weather permitting. Northridge Park is located at 8800 S. Broadway.

The overall goal of this project is to improve parking lot drainage, surfacing and handicapped-accessible parking spaces. In conjunction with the Highlands Ranch Community Association, which owns the Recreation Center at Northridge, work in the middle lot and east lot will be scheduled in phases to best accommodate visitor parking during construction.

The Metro District appreciates users' patience during this maintenance project. If you have questions, please contact Construction and Facilities Maintenance Manager Ken Standen at kstanden@highlandsranch.org or 720-240-5913.
